## DEE DEE'S PERFECT STIR AND GO MIX

- Fill your container with 4 cups of hot tap water. (Pro Tip: Mark your container at the 4 cup level for future mixes so you can fill directly from the tap without messing next time).
- Sprinkle in 1/2 a teaspoon of the Secret Mix slowly to avoid clumping while stirring constantly for about a minute.
- Add 4 cups of cold tap water.
- Pour in 1/2 Cup of Dawn and let it settle on the bottom of the bucket without stirring to avoid getting any air into the mix.
- Stir gently until the solution is well mixed.
- Enjoy!

The bubble mix will keep for months so long as you avoid introducing too much dirt and oils from the hands of tiny children.
